

ANNUAL POULTRY REVIEW

BROILERS

Oklahoma's 2017 broiler production totaled 205 million head, down 5 million from 2016. The total live weight pounds produced was 1.37 billion, up 1 percent from the previous year's production. The total value of broiler production increased 14 percent to \$745 million. The average price per pound for broilers, at 54 cents, was up 7 cents from the 2016 price. Oklahoma was ranked number 13 in the nation for broiler production by total pounds produced in 2017, making up 2.5 percent of the national production.

Welcome to the 2017 issue of the Annual Poultry Review! Thanks to all participants in the poultry industry for their continued support and cooperation – especially the producers who provide data for the weekly Broiler Hatchery and monthly Layer and Egg surveys. Without their commitment and participation, this report would not be possible. This publication is a compilation of related reports issued by USDA's National Agricultural Statistics Service (NASS) in an effort to provide a complete source of statistics relevant to the poultry industry.

Though many of the statistics in this publication can be accessed through our website on a regular basis (www.nass.usda.gov/Publications), this review will be issued annually following the release of the Oklahoma *Poultry County Estimates*.

Please feel free to contact our office with any comments or questions you may have. I hope you find this information useful!
